

REPORT OF REVALIDATION EXERCISE FOR ENVIRONMENTAL CONSULTANTS IN LAGOS STATE.

The Agency between 17th & 31st August. 2022 conducted a revalidation exercise for all her consultants.

The exercise which was aimed at assessing the competence, capacity, integrity and professionalism of both the existing and intending consultants by with the objectives to strengthening environmental management and pollution control in the state was conducted by an independent project management firm... Fluid Click Solution Limited

The engagement of Fluid Click Solution Limited was amongst other reasons to demonstrate objectivity and transparency of the exercise

The Agency guaranteed a level playing field for all her consultants by ascertaining that all accredited consultants on the agency database were duly informed about the exercise. For a wider inclusion, the agency allowed on line interactions for those that showed interest

While congratulating everyone that participated in the exercise. I am excited to inform you that the outcome of the exercise has once again confirmed the very high standard that LASEPA is known for as over 80% of the participants in the rigorous interaction were successful.

It is therefore my pleasure to release the list of successful environmental firms in the revalidation exercise. The under listed consultancy firms are hereby RETAINED as LASEPA accredited consultants effective 1st January 2023
